Erfurt, Germany, 20 – 23 July 2020

SMACD2020 –

International Conference on Synthesis, Modeling, Analysis and Simulation Methods and Applications to Circuit Design

The 2020 edition of the SMACD will be held in Erfurt, Germany, as a forum devoted to modeling, simulation and synthesis for Analog, Mixed-signal, RF (AMS/RF) and multi-domain (MEMS, nanoelectronics, optoelectronics, biological, etc.) integrated circuits and systems. Experiences with modeling, simulation and synthesis techniques in diverse application areas are also welcomed. Objective technologies include CMOS, beyond CMOS, and More-than-Moore such as MEMS, power devices, sensors, passives, etc. In the annual EDA competition, students compete with their developments of tools and methods to improve design automation for ICs and systems.

PRIME2020 – 16th Conference on PhD Research in Microelectronics and Electronics

PRIME has been established over the recent years as an important conference where PhD students and post-docs with less than one year post-PhD experience can present their research results and network with experts from industry, academia and research. PRIME 2020 will feature conference program reflecting the wide spectrum of research topics in Microelectronics and Electronics, building bridges between various research fields. In addition to the technical sessions, opportunities for the conference attendees will be the keynote talks, workshops and social events. At the conference, Best Paper Awards in Gold, Silver and Bronze will be presented for the best 10, 20 and 30 percent of accepted papers.
